Invitation to apply to the 'Meet the Investor' Workshop at OI 2014 Innovation Zone

Oceanology International is pleased to announce the new Innovation Zone at the 2014 event, on 11-13 March 2014 at ExCeL London. The Zone will support emerging technology companies in showcasing their products and services to the largest international community for marine science and ocean technology visitors.

The Oiltech Investment Network (Oiltech) is collaborating with OI 2014 to host a 'Meet the Investor' workshop alongside the Innovation Zone on the 11th March 2014. The purpose of this workshop is to:

- Identify technologies that have existing or potential applications in the oil and gas sector that are seeking investment funding
- Connect these companies to energy-focused investors
- Support companies in getting technologies to market in the fastest and most effective way, via dedicated presentations from key industry representatives

Innovative technology providers seeking funding are invited to submit an application form to meet with specialist oil and gas investors (subject to acceptance by the Oiltech Investor Panel).

Submit an application form online on:

www.oceanologyinternational.com/home/Innovation-Zone/.

The application forms must be received no later than Friday 31st January 2014.

Applications will then be assessed and invitations will be sent out to the successful candidates.

In addition to one-to-one meetings companies can attend a free of charge seminar programme that will take place at the Innovation Theatre and will include:

- Guest speakers from an Oiltech operator member highlighting global technology needs
- Key-note presentations describing routes to funding and information on Venture Capital and Private Equity funding
- Opportunities to network with service providers (IP attorneys/finance advisors/accountants), other entrepreneurs and key advisors within the E&P technology sector

Participation in the Innovation Zone and at the 'Meet the Investor' Workshop is open to entrepreneurs, universities, inventors and businesses currently seeking funding within the E&P and oilfield service sector.

About Oiltech:

The Oiltech Investment Network was established in 2010 by leading global investors in upstream oil and gas technologies to encourage the uptake of innovative products. These organisations have invested more than \$1 billion in over 80 oil and gas technology companies over the past 5 years.

One of the objectives of the network is to drive innovation within the sector by providing a platform to connect end users to innovative technology providers and entrepreneurs to energy focused inventors.

The Oiltech network members include Altira Group, BP Technology Ventures, Chevron Technology Ventures, Energy Ventures, Investinor, Lime Rock Partners, Saudi Aramco Energy Ventures, Shell Technology Ventures, Statoil Technology Invest and Viking Venture. The network is managed by OTM Consulting.

About Oceanology International 2014:

Oceanology International is the global forum where industry, academia and government share knowledge and connect with the marine technology and ocean science community, improving their strategies for measuring, exploiting, protecting and operating in the world's oceans.

Established in 1969, Oceanology International features the world's largest exhibition for marine science and technology, several agenda-setting technical conferences, visiting vessels and waterside demonstrations, all free to attend.

Innovators seeking exposure on the Innovation Zone can benefit from a bespoke package. Find out more on www.oceanologyinternational.com/home/Innovation-Zone/.
