

# Li-Ion PowerPack

Li-Ion Technology 14.4 V / 140 Ah / 2016 Wh

<b>Voltage</b>	14.4 V nominal voltage 12.0 V minimum voltage
<b>Capacity</b>	140 Ah rated capacity, +20°C, after 50 cycles
<b>Power</b>	2016 Wh
<b>Current</b>	7 A max. continuous current
<b>Charge cycles</b>	>800 cycles for 80% remaining capacity
<b>Dimensions</b>	168 x 350 mm (Ø x Height)
<b>Connector</b>	SubConn <sup>®</sup> BH-4F
<b>Max. Operating depth</b>	100m (up to 6000 m on request)
<b>Battery Management System (BMS)</b>	Optional BMS determines and reports <ul style="list-style-type: none"> <li>- State of Charge (SOC)</li> <li>- Remaining Capacity</li> <li>- Current consumption</li> <li>- Cell voltages</li> </ul>
<b>Data Interface</b>	Isolated RS232/RS485, NMEA-183 protocol
<b>Options</b>	Other voltages and capacities on request
