DROP-IN MEETING GUIDE

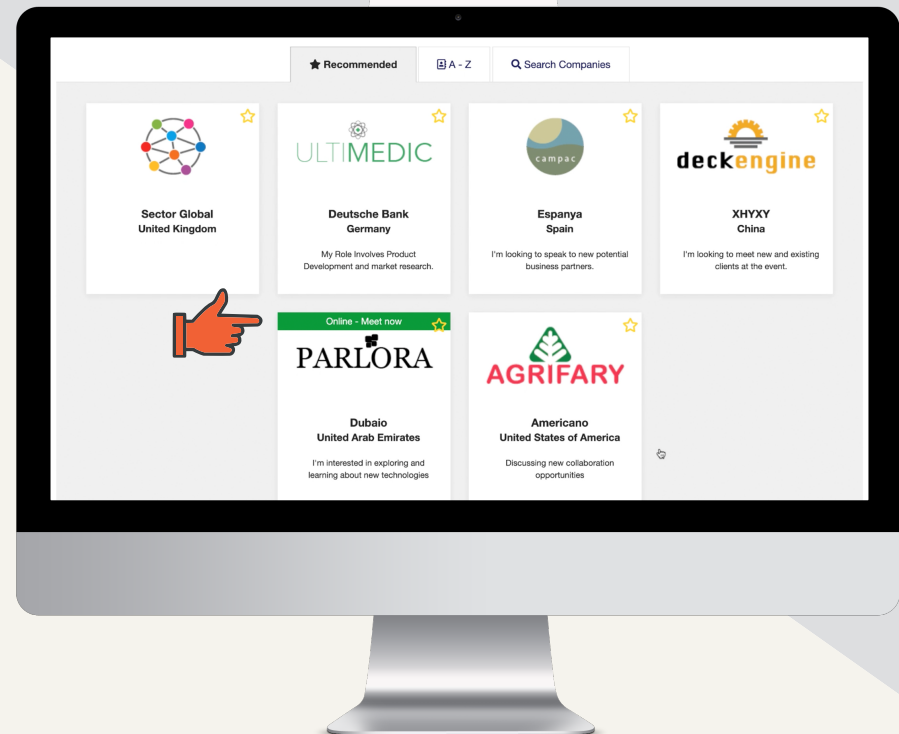

GET STARTED

To access a drop in meeting you need to visit the exhibitors company stand, accessed via the directory.

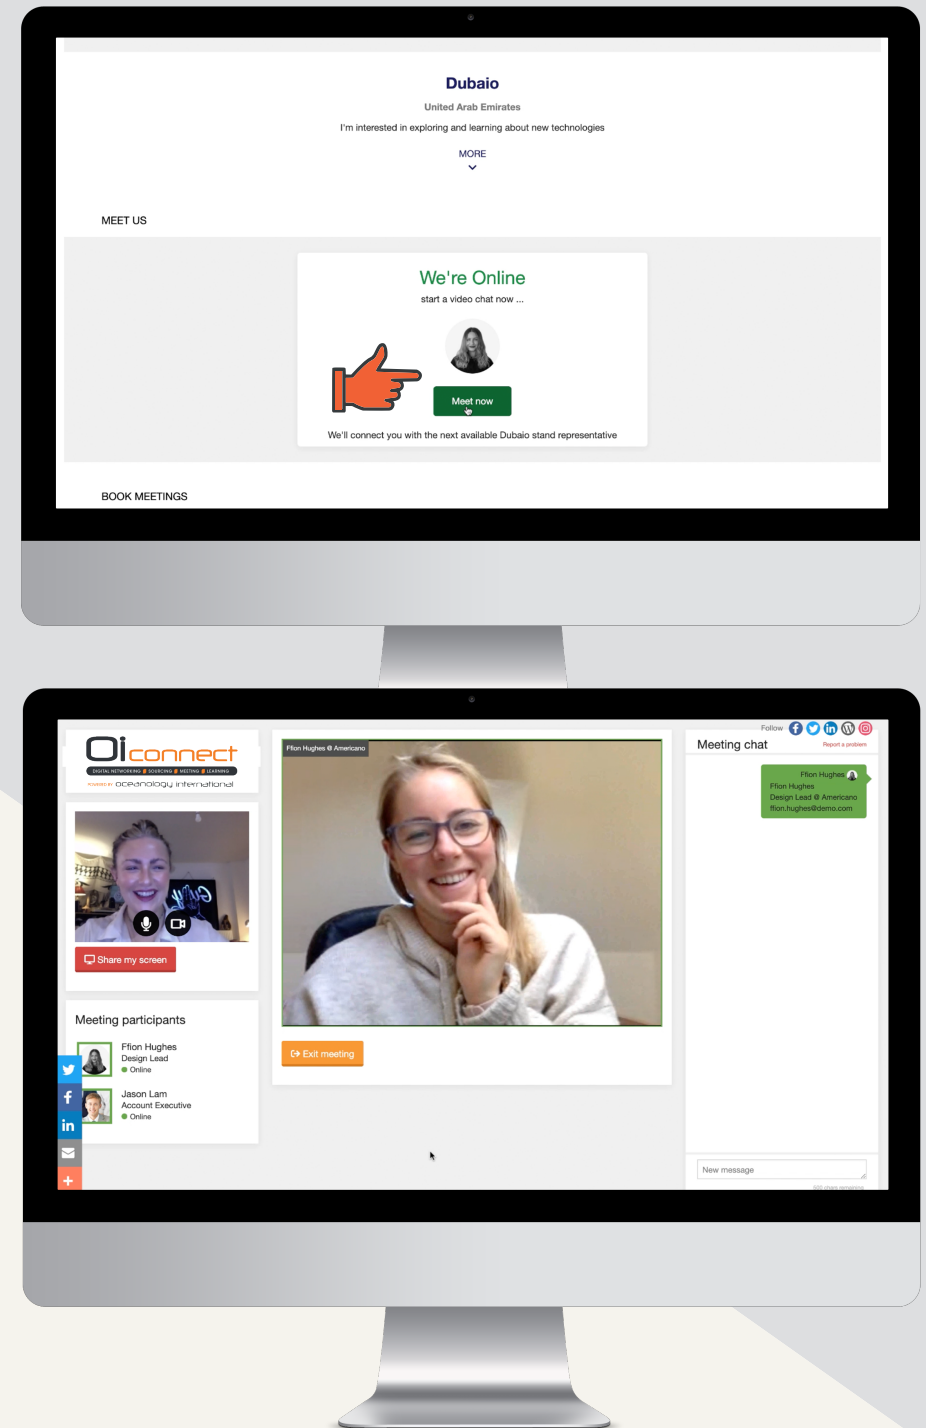

A green bar will appear above the company card which indicates that they are online and available for drop-in meetings.

Once on their profile simply click 'Meet Now' to start your drop-in meeting. It might take a few moments for your meeting to connect, so please be patient.

Make valuable business connections with exhibitors during the virtual show. Remember, no additional software is required!
